

Discover your Summer 2024 Internship

You may not be familiar with the BYK name, but the products we make can be found all around you. BYK additives are used in wall paints, printing inks, cars, boats, construction materials, furniture, packaging, agriculture, cosmetics, batteries, and more.

BYK is a leading global supplier of specialty chemicals. We help customers innovate their products, improve their manufacturing processes and even become more environmentally friendly.

The 10-week program provides qualified students with an excellent opportunity to gain first-hand experience, receive valuable on-the-job training, and learn more from industry professionals

Where to apply:

As an innovative company, we encourage employees to develop and grow by supporting and maintaining a corporate culture that lives our values.

Benefits:

- *Competitive Wages
- *Exposure to Leadership
- *Networking Opportunities
- *Diverse, inclusive, and innovative environment & culture

We start accepting applications for our Summer internship starting March 1

Our paid internship will run May 28th - August 9th
